

Decision Making 101.

LESSON 1A

Decision Making 101 is a method to help us make better decisions. Sometimes we make good decisions and sometimes we make bad decisions. The books "The Lies We Believe" by Chris Thurman and "LoserThink" by Scott Adams describe the main causes of our bad decisions and subsequent troubles.

Bad decisions come from making decisions without looking at all the options and all the pros and cons, and not identifying your goals and needs. It means that you don't consider both the short term and long term consequences. Bad decisions are often based on Lies, Fallacies and false assumptions.

•Fallacies are bad methods or reasons for making a decision. (BadThinking)
Beware of Fallacy of authority, majority, people please, hasty decision, avoidance, emotions, false premise

☀️ Most bad decisions begin with an idea with a good-sounding reason that was never tested.

1. Ask: "Is that a good reason?"
2. Ask: "Is that a good idea?"

Good Decisions: Do what is right and good in thanks and praise to God our Creator, Redeemer. IF it is right then do it. IF it is wrong then don't do it.

IF you are unsure, then say "I don't know. Let me think about it."

🛑 STOP! 🙏📖 TALK to GOD.

Test the thought or statement. Write all options pros cons.

Good decisions come from Testing each statement and thought. Is this true? What is the truth?

Good decisions come from Looking at all the options and all the pros and cons, identifying the goals and needs, and considering both the short term and long term consequences.

Good decisions may also include writing the criteria and comparing the options for a particular goal/need.

Good decisions have a good motive and the right attitude. Pick the best option. (GoodThinking)

•Test your thoughts, attitudes and actions. Are these good, beneficial, agape, God-pleasing? God says...

Explore vs ignore feelings, concerns, gut feeling. Bad feelings are a signal that something is wrong.

See "The 6 Pillars of Decision Making" by Patrik Ian Meyer for these basics of good decision making.

See "Telling yourself the Truth" by William Backus and Marie Chapian

Wisdom is supreme, therefore get wisdom. Proverbs 4:7

Decision Making 101 worksheets on pages 5-6 are based on these principles, a practical application.

Decision Making process

Decision Making 101 is based on the normal process/progression used to make decisions.

The normal decision process starts with a A.Situation/Event then my B.Thinking about the situation which leads to my CFeelings and my D.Decision/Action.

 A. Situation →  B. Thought →  C. Feelings →  D. Action → Results

IF you change your B.Thinking then you change your C.Feelings and D.Decision/Action.

A. Situation → B. Thought → C. Feeling. → D. Decision/Action → results

BB. Truth → C+ good Feeling. → D+ good Decision/Action → good results

The following is an example. (more examples of A.B.C.D. are in “The Lies We Believe” by Chris Thurman)

A. Problem/Situation: A. I made mistakes at work

B. my Thought (T/F): B. I’m no good because I made mistakes. I must be perfect. (False)

C. my Feelings: C. Miserable. Depressed.

D. my Action > +pros. -cons. D. Give up. Not work hard. > -lose job, -lose friends. -lose apartment

BB. Truth. Right Thinking. BB. I’m OK. Nobody is perfect. We all make mistakes.

C+ good Feeling: C+ Content. Happy. Confident. Feel good.

D+ good Action > +pros. D+ Work hard. Feel good. Try to improve. > +do better at work.

DEFINE the PROBLEM. TEST the STATEMENT.

LESSON 2

IF I C.Feel bad then there is a problem with A.my Situation or B.my Thinking. Test it with BB.Truth.
C.my Feelings. "why?" because of A.my Situation. and B.my Thought. BB. Truth. → D+ good Action.

PROBLEM: TEST the Thought, Statement. T/F

C. my Feelings:	C. Miserable. Depressed. Feel bad.	(why?)
A. Problem/Situation:	A. I made mistakes at work.	(The reason I feel bad)
B. my Thought: (T/F)	B. (T/F) I'm no good because I made mistakes. I must be perfect.	(False)
BB. Truth:	BB. I'm OK. Nobody is perfect. We all make mistakes.	
BB. God says....	BB. No difference; all are sinners. Christ came to save sinners. Romans 3	
BB. IF--THEN premise:	BB. IF I work hard and try to improve then +do better at work.	
D+ good Action → +pros.	D+ Work hard. Try to improve. → (short-term:work) → +do better at work.	

EG: EVIDENCE GIVEN to support a BB.Truth premise. (use **BB.Truth Tests** listed below)

-  Bible truths

Love one another

since God so loved us, we also ought to love one another. 1John4:11 "If you love me, keep my commandments." John 14:15

Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It is not rude. It is not self-seeking, it is not easily angered, it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth. It always protects, always trusts, always hopes, always perseveres. 1Corinthians 13. REGAL. Repent. Grieve losses. Accept. Learn. Laugh. The second is this: 'Love your neighbor as yourself.' Mark 12:30. Set free, to serve and love one another. Galatians 5:13-14

Good decisions Test each statement, look at all the options and all the pros and cons, and identify the goals and needs.

Good decisions may also include writing the criteria and comparing the options for a particular goal or need.

Bad decisions come from making decisions without looking at all the options and all the pros and cons,

and not identifying your goals and needs. It means that you don't consider both the short term and long term consequences.

A bad decision is based on Lies and Fallacies (bad methods or reasons for making a decision, B- a Faulty Thinking Pattern)

BEWARE!  

 Fallacies. Bad Motives/Reasons for making decisions. (Bad/Wrong Thinking) LoserThink, Foolish

Here are some common fallacies, bad reasons or ways to make a decision: a false premise, distorted patterns of reasoning.

1. Fallacy of authority: making decisions based on someone's advice or opinion, without testing the statement, Psalm 118:8 thinking that this person is always right. (EG. HE said it so it must be right.) halo effect, expert advice fallacy. beware of bias,BS. They may be right; they may be wrong; they may be partly right. Ask "why?" Test the statement. Is it True or False? True or BS?
2. Fallacy of majority. Just because the majority believe something doesn't mean it is true. Beware of compromise of truth or principles
3. Fallacy of people pleasing VS being honest, assertive. trying to be nice and not hurt their feelings. Want approval. I must look good. saying or doing things to make them happy so that they like me and not get mad and hurt my feelings. Must live up to expectations
4. Fallacy of hasty decisions, because you feel rushed or feel too proud to say "I don't know" "Let me think about it." Impatient. Rushed; I don't want to look slow. This means making a decision before looking at all the options and all the pros and cons.
5. Fallacy of avoidance, trying to avoid conflict, pain, truth, reality, problem, Risk, work, discomfort, his anger/dislike, doing what is right
6. Fallacy of fear, afraid of what people will say or think or do if I do the right thing or what I want, real me. Fear of risk, mistakes, failure
7. Fallacy of emotions, basing your decisions on fear, anger, pleasure, excited, romance, pride, flattery, easy, pity, impatience, desires
8. Fallacy of desires, basing your actions and decisions on your desires, pleasure, covet, envy, lust, greed, self-pity, feelings, feels good
9. Fallacy of jumping to conclusions, without having all the facts. **FALSE PREMISE** False assumption. First impressions. Anchoring.
10. Fallacy of false dilemma, thinking there are only 1 or 2 options when there may be 5 or more options.
11. Fallacy of half-truths, looking at just the pros or just the cons or just some of the pros or cons instead of looking at all the pros cons concerns for each option.
12. Fallacy of go with the flow, OK. following a combination of many fallacies, without stopping to talk to God and apply GoodThink. If it feels good, do it. Just go with the status quo (easy) without stopping to question or examine the routine, habits, actions, goals
13. Fallacy of false assumption, false cause, irrelevant, listen to advice, repetition, sunk costs, ignore my feelings/concerns/gut, look back
14. Fallacy of look back in self-pity, could have/should have, BB. Don't look back. Plan ahead. Reality. D1,2,3 options. D+Best option.
15. Fallacy of perfectionism. I must be perfect. They must like me. I must look good. Super Me vs Real Me. must meet expectations.
16. Fallacy of focus on short-term instead of long-term results
17. Fallacy of escape problems through addictions – thinking that avoiding the problem through addictions will solve it, instead of facing reality and taking constructive action. Addictions will make things worse, not better.

Decision Making 101 Lesson Plan

Lesson 1– The cause of Good and Bad decisions. page 1 The decision making process. page 2

- Hand out Decision Making 101 basics (DM101 basics) from DecisionMaking101.com
- A. Read out loud the Decision Making 101 explanation from page 1
 - What are the causes of bad decisions?
 - What are the basics of good decision making?
 - What are the different motives/reasons for making a decision?
- B. Read out loud the Decision Making process from page 2
 - What are the natural steps of the decision process that everyone does?
 - Printout and handout the Lesson 1 and 2 worksheets from pages 12-13
 - Go through some scenarios with A.Situation. B.my Thought > C.my Feelings > D. Action. page 12,15
 - Go through same scenarios with BB.good Thought > C+good Feeling > D+good Action.
 - What type of decisions are best suited for using the ABCD model?

Lesson 2– Define the problem, Test the statement. page 3

- How does one get to the root problem? Read page 3.
- IF I C.Feel bad then there is a problem with A.my Situation or B.my Thinking or Ba.my Attitude. Maybe I need to change to BB.good Thinking or BBa.good Attitude or D+better Situation.
